The epic failure of Dewey & LeBoeuf stands as a regrettable part of history of the legal profession. But far worse was the sad chapter written from the trial of certain of the defunct firm’s principals for allegedly fraudulent dealings. The trial was unprecedented in the nature of the defendants, the complexity of the charges, and the endless testimony.

But if you do not learn from history, you are doomed to repeat its mistakes. The goal here is to analyze the Dewey trial, and explore what both sides, prosecutors and defense counsel alike, did right and wrong. It is also a cautionary tale in law firm management, and how financial ills can put even established law firms into an irrevocable tailspin.
